### Notesheet

Subject: Establishment of the FRIENDS Teahouse in the College Organizational structure

The participation of RTC in the Erasmus+ FRIENDS project is aimed at the further internationalization of the institute and to give our students the opportunity to learn and understand more about the international world so that they may become individuals who are aware of the importance of cultural diversity and be well-prepared for international interactions and experiences.

The FRIENDS Teahouse has been established on campus, attached to the College's multi-use facility 'Executive Centre' as a part of the objectives of the project. The facility provides a dining area with commercial kitchen space, and adjoining resource rooms. The Teahouse will serve as a space for multicultural interactions between the students and will be in the care of the top three winners of the Digital Storytelling Contest to start with. The Teahouse will be under the supervision of the International Relations Office and the Student Services Office.

Sincerely,
